PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building e-commerce websites, benefits platforms, and email marketing campaigns for banks and international brands. Most recently at OneDemand, I built loan flows for Banco Galicia using React, Next.js, and TypeScript. As a freelance developer with MK5, I lead frontend development for benefits platforms serving clients such as BCR-Mastercard, McLaren, and Bi Pasiones. Certified as a semi-senior Full-Stack Developer with a specialization in Frontend Development, I incorporate Figma, Docker, and AI tools such as Claude Code into my workflow to deliver high-quality code efficiently.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Astro, Node.js, Tailwind CSS, WordPress (Elementor).

Backend & Testing: Java, REST APIs, JUnit, Postman, Selenium.

Databases: MySQL, MongoDB.

Tools: Figma, Git, GitHub, Docker, Vercel.

AI: Claude Code, AI-assisted development.

PROFESSIONAL EXPERIENCE

Frontend Developer | OneDemand | HR & IT

Mar 2025 – Oct 2026

- Frontend Developer assigned to Banco Galicia's loans team, working with React, Next.js, and TypeScript.
- Built the end-to-end flow for a new loan product from scratch.
- Redesigned the complete loan application flow, updating both the UI and the underlying logic of each step.
- Developed a loans overview screen showing customers their active loans and any mortgage or secured loans held with other institutions, with entry points to each loan type's flow (personal, mortgage, and secured).
- Integrated the frontend with the bank's internal services.

Frontend Developer | MK5 (Project-based)

Sep 2023 – Present

- Develop frontend for landing pages, platforms, and email marketing campaigns for international brands using JavaScript, HTML5, and PHP.
- McLaren (GTCracing): benefits platform for a Guatemalan bank; developed the frontend for the landing page, platform, and emails.
- Bi Pasiones (Banco Industrial): benefits platform featuring monthly promotions, coupons, and quizzes; developed the landing page, platform, and email marketing campaigns.
- Scotiabank (South & North): developed and adapted email campaigns for 7 countries.
- BCR – Mastercard – UEFA Champions League: benefits platform for Banco de Costa Rica customers; developed the landing page, platform, and emails.
- Nutrition Forum (Danone, Mexico): online event platform delivered for the 2024, 2025, and 2026 editions; developed the landing page, platform, and emails.
- Riot Games: game-launch landing page featuring an interactive wheel and email campaigns.
- Galilleo Event: landing page and emails for a live-streaming event.

Frontend Developer | UO-Solutions (Project-based)

Feb 2024 – Dec 2024

- Developed frontend for e-commerce websites and landing pages using Next.js, React.js, Tailwind CSS, and WordPress based on Figma designs.
- Clients: Cookies.co, RemedyCenter, Bio-soil, a distribution company, and a law firm in Chile.

EDUCATION

Certified Tech Developer | Digital House, in partnership with Globant and MercadoLibre

2022 – 2024
